THE EUROPEAN LYMPHOMA INSTITUTE

regroups top European specialists in the field of lymphoma within a net dedicated to research, training and education. To date, twelve European academic research groups have come together in an effort to define strategies to analyse and characterise this cancer, common diagnostic procedures and therapeutic standards as well as to facilitate clinical and fundamental research at the European level.

As a result of this collaborative work, truly unique in the world, together we are helping to bring lymphoma research forward, and to guarantee equal access for all patients to the best possible care.

President: Prof. Bertrand Coiffier – Lyon, France
Project Manager: Claire Morin – Lyon, France
